

KS-WE300

300M Fast Wireless Extender

#Version 1.0 by Kosky

KS-WE300

Introduction

KS-WE300 is the reliable good-performance 300Mbps wireless range extender complying with 802.11n standard for full-home wireless coverage without dead end. Based on MIMO technology and adoption of 4*external antennas KS-WE300 is capable to bring fast and stable wireless data transmission with effectively enhanced Wi-Fi signals. By plug-in design with universal socket standard support you can easily deploy or place the product to wherever the wireless signal is needed. The initial configuration is also simple by easy guideline and after the first time successful setup it will be plug-and-play for quick connection. In one word KS-WE300 is the ideal additional wireless device for Wi-Fi coverage of your home corner or dead zone.

Highlights

- √ 802.11b/g/n standard with 300Mbps wireless speed
- √ 4*external antennas for better and more reliable Wi-Fi
- √ Boosts your existing Wi-Fi coverage area and quality
- √ New WISP relay mode for one step Wi-Fi signal amplification
- √ Strong chipset assures the stable wireless connection without drop
- √ Easy Web setup and fast encryption management
- √ Working together with any of wireless router

Key Features

◆2.4GHz 300Mbps Wi-Fi range extender

Expand your Wi-Fi coverage by more efficient LAN port data transmission so as to bring smooth voice, video, online surfing and gaming experience.

◆Compact design and strong feature

Even with compact size KS-WE300 is capable to provide wireless access to the areas the standard router simply can't reach and keep all your networking devices running as fast as possible.

◆MIMO technology for powerful wireless speed

4*external antennas with MIMO technology help increase the wireless speed and ensure the stable wireless signal to reach where you need it most.

◆Support access point mode for wireless transmission

By working in AP mode it works like you setup a hotspot and create a new network.

◆Easy to setup and manage

Just need press the WPS button on the router, and then press the range extender button on KS-WE300 to start enjoying the expanded Wi-Fi.

Specification

Product Parameters	
Model	KS-WE300
Box Size	200*100*50mm
Specifications	
Type	300M Fast Wireless Extender
Wi-Fi Standard	IEEE802.11b/g/n
Frequency	2.4GHz
Speed	Upto 300Mbps
Transmission Power	≤15dBm
Wi-Fi Function	Enable/disable, wireless mode, bandwidth, channel, authentication mode and password
Security	WPA-PSK, WPA2-PSK and mix WPA/WPA2-PSK
Ethernet Port	2*10/100Mbps RJ45 ports
Button	Reset/WPS
Antenna	4*external antennas
Power	AC110~230V, 50/60Hz
Others	
Operating Temperature	0 °C ~ 40 °C
Storage Temperature	-40 °C ~ 70 °C
Operating Humidity	10%~90% non-condensing
Storage Humidity	10%~90% non-condensing
Certifications	CE/FCC

Packaging List

Material	QTY
KS-WE300	1
QIG	1
RJ45 Cable	1
